# Northeast Wisconsin Regional Trauma Advisory Council Speaker List and Bio

## **Keynote Speaker – Opening Session**

### **“Why I like Trauma”**

*Dr Michael McGonigal*

Emeritus Director of Trauma Services

Regions Hospital Level I and Pediatric Trauma Center, St Paul, MN.

## **Break Out 1**

### **Penetrating Neck Trauma**

*Dr Rebecca Johnson - Aurora BayCare Medical Center*

## **Ultrasound Basics and How to Use Ultrasound to Assess Patients with Traumatic Injuries**

*Dr. Chris Painter – Aurora BayCare Medical Center*

Dr. Painter will introduce the basics of ultrasound as well as how to implement ultrasound for utilization in the assessment of patients with traumatic injuries. Topics discussed will include fast exam and lung ultrasound for assessment of specific injuries including intrabdominal bleeding and pneumothorax.

## **Break Out 2**

### **Click it, ship it, track it and expedite trauma transition of care with ease: Understand EMTrack utilization for trauma patients across the continuum of care.**

*Margaret Wogahn, WI DHS - State Trauma Coordinator*

*Katherine Johnson, WI DHS - Hospital and Healthcare Coordinator*

## **Improving Pediatric Readiness in Wisconsin**

*Carissa Brunner, MPH, CLC*

*Leslie Walker, MPH*

Most emergency care organizations are not fully prepared for pediatric patients. WI EMSC is expanding programs throughout Wisconsin to improve pediatric readiness. Learn more about the status of pediatric readiness in Wisconsin and how you can better prepare for kids!

## **Break Out 3**

### **Hands on ultrasound**

*Dr. Chris Painter – Aurora BayCare Medical Center*

This session will focus on developing basic ultrasound skills and practicing those skills on a volunteer person.

## **Workplace Violence**

*Dave Kobiela – Emplify Health by Bellin*

*Chelsey Senn*

## **Break Out 4**

### **Medical Directors Hot Topics**

*Dr. Bob Zemple – Aurora BayCare Medical Center*

*Dr. Kyle McCarty – Hospital Sisters Health System*

## **Airway Management in the Trauma Patient**

*Dr. Chris Painter – Aurora Bay Care Medical Center*

Dr. Painter will focus on indications for airway management as well as required preparation and assessment of patients requiring airway management. There will also be discussion of recommended equipment and techniques. This presentation will also highlight some important differences in specialized populations like Pediatric patients.

## **Break Out 5**

### **MCI management inside the Chippewa County wagon rollover**

### **GSW case review**

*Dr. Cavin Glen - St Vincents Hospital*
